

Vocational / Technical Programs that Work

Seniors,

For those of you who may come to realize that college is not for you, please consider furthering your education at one of the public vocational / technical schools that are located within the Miami-Dade County and Broward Public School System. The courses offered by these public institutions are by far more affordable than any that you may find at any other private voc / tech center or college.

Miami-Dade County Public Schools, Adult & Career Technical Education programs are designed to prepare you to enter the career of your choice through our Career Technical Education training. .

Whether you decide to learn technical skills or get a college education, Miami-Dade County Public Schools has an Adult Basic Education Program that will provide you with the foundation needed to begin your new career.

Our post-secondary training is designed to support the local workforce. Adult & Career Technical Education programs provide you with pathways in the areas of Industrial/Technical, Health/Medical, Business/Computers, Family and Consumer Sciences, and Public Service.

Courses are offered at 21 main campuses conveniently located throughout Miami-Dade County. The programs are designed to meet the needs of working adults and include flexible schedules.

Vocational / Technical postsecondary training programs prepare students to enter a specific career or vocation. Programs vary widely in length and complexity. Certificates are awarded after successful completion of specified courses and satisfaction of language and computational skills.

To learn about the types of Vocational / Technical postsecondary training programs that MDC offers, please go to: <https://sisvsr.mdc.edu/ps/sheet.aspx>

College Credit Certificate Programs focus on a specific job or set of skills, these programs require fewer credits than an AS degree and are Florida Department of Education Certified College Credit programs. The credits granted will apply towards the related AS degree.

To learn about College Credit Certificate Programs offered at MDC, please go to: <https://sisvsr.mdc.edu/ps/sheet.aspx>

MDC also has a large Community Education Program. To learn more about the classroom and or on-line courses that they offer, please go to: <http://www.mdc.edu/ce/north/?app=10&newwin=Y>
